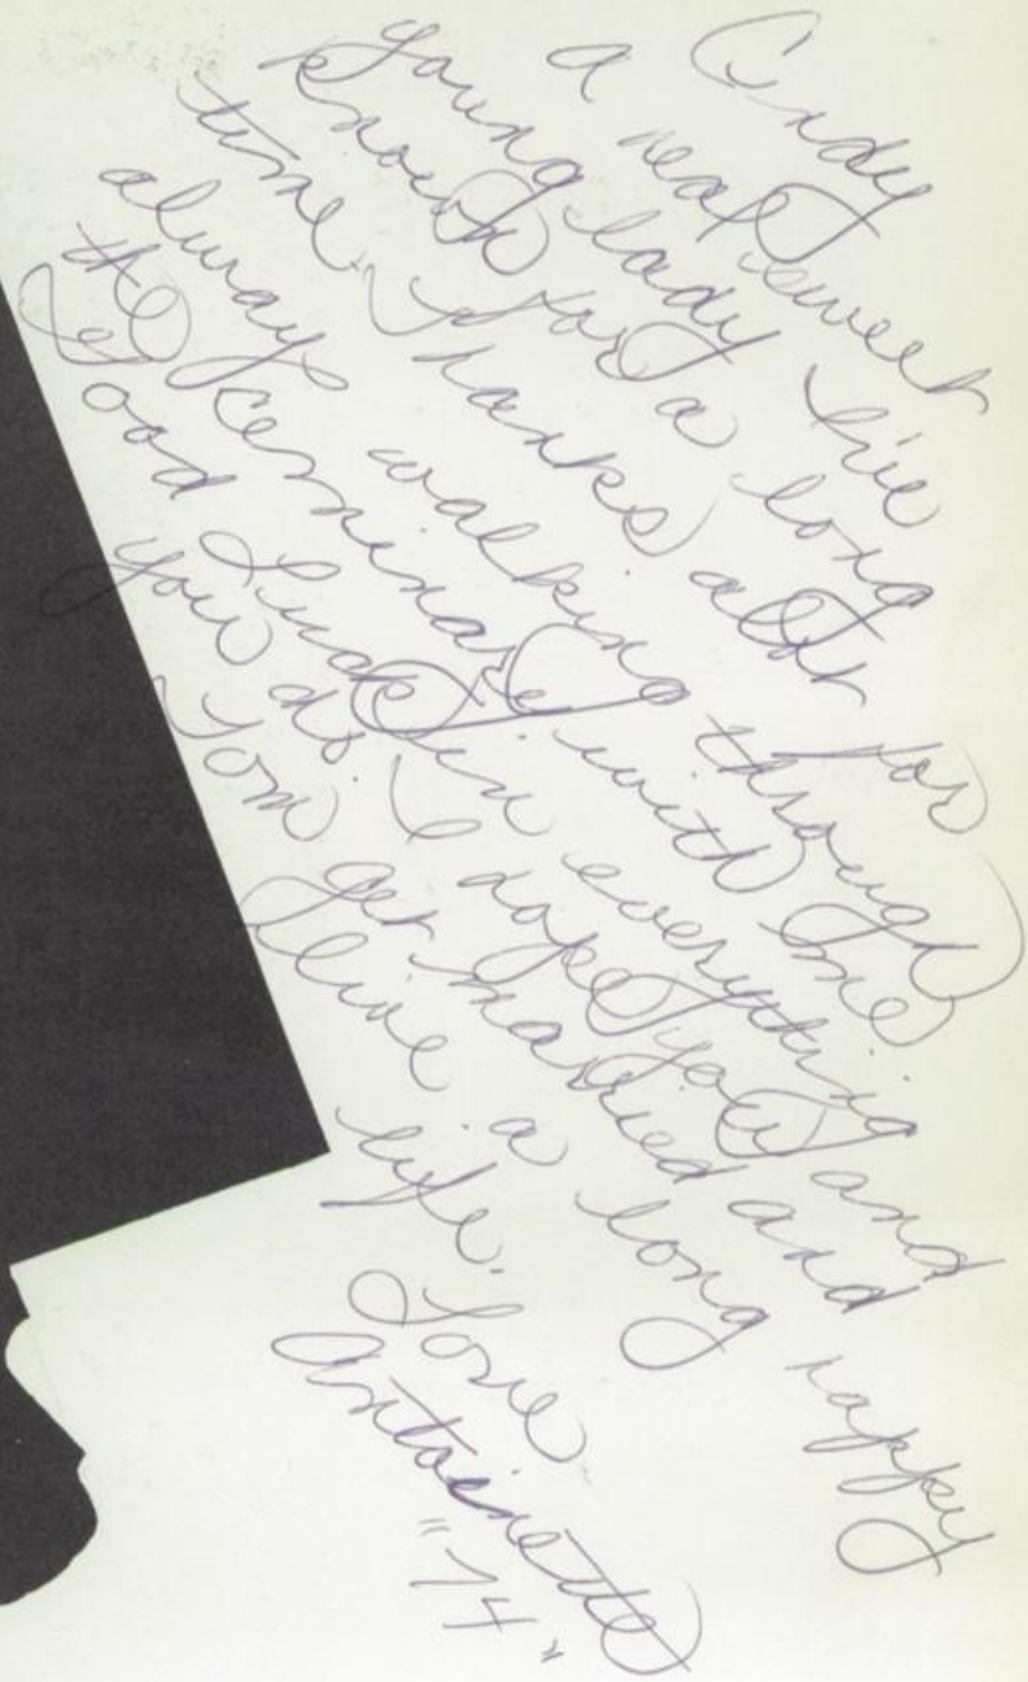
rememberances for seniors



principal

the 1974 senior class will always be memorable to me because it marks the beginning of my career as a principal and it will be the first graduating class under this administration.

i believe that the true test of a great school is measured by the success of its graduates. peabody has a distinguished record of producing outstanding graduates who have gained recognition on the local, state, and national levels. this class has already brought honor and distinction to our school. may you continue in this great tradition.

we hope that you will use the zest, vibrance and exuberance of your youth to build a way of life that will bring you fulfillment and happiness.

our prayers and best wishes go with you for continued success.

leonard kubeiak

every ship must have a qualified and dedicated crew. every crew must have qualified officers in charge of certain responsibilities. every successful voyage must be planned, charted and precisely executed. all of these responsibilities rest upon the decision and guidance of the captain.

peabody has a new and quite capable "captain" mr. kubiak. with his guidance as principal of peabody, our voyage will be smooth, exciting and enjoyable.

the appointment of mr. kubiak to the principalship is one of the better things to happen to this school in many years. his knowledge of the school — its students and staff, and of the community will certainly prove to be involuable in achieving the goals which he has for himself and for peabody.

our new vice-principal

mr. kubiak's appointment as principal provides outstanding educational leadership for peabody high school. he has the background of successful professional experience and concern for students which is important for this responsibility.

i feel confident that mr. kubiak will encourage students to make the most of their educational opportunities, and i extend to him my sincere best wishes.

school social workers, the school social worker belongs to a group of special services which is provided by the board of education to help the teachers with some of the problems in the school. they serve students whose problems interfere with their ability to learn. some of these problems are illness, achievements below ability level, problems of attendance or frequent tardiness, aggressive or hostile behavior, difficulty with other students or evidence of parent neglect. the more difficult problems are referred to community social agencies that are equipped to help the student or his family. the aim of the school social worker is to help young people make adjustments so that they may ultimately become responsible adults.

This being my first year as principal will make the 1974 graduating class especially memorable. I am already proud of your accomplishments and the honor that you have brought to Peabody.

I believe that the true test of a good school is measured by the success of its graduates. You will join an alumni that has given Peabody a distinguished name and record. I know that you will continue in this great tradition and apply your youthful enthusiasm, vitality and exuberance to a way of life that will bring you happiness and fullfillment.

Our prayers and good wishes go with ytu for continued success.

Sincerely,
Leonard Kubiac
